PELICAN BALLROOM, PATIO AND FOYER

The spacious Pelican Ballroom is highlighted by a vaulted ceiling, original artwork, and large, south-facing windows with plantation shutters that let in plenty of California sunshine. An adjacent foyer is graced with distinctive custom furnishings, such as hardwood credenzas with polished marble. A patio with a partial ocean view is an elegant venue for your cocktail reception. The Pelican's location on the second floor of the Conference Center creates a secluded setting ideal for intimate events.
