## Cure Spa West Hollywood & Malibu

With two prime locations in West Hollywood and Malibu, CURE is the place to try for relaxing rejuvenation. Specializing in everything from body wraps and polishes to aromatherapy and travel themed massages, this medical spa and salon is a one-stop location for multiple

services you need. We recommend trying the Turkish Hammam along with an 80 minute Jetsetter Massage. The combination of a revitalizing full-body massage and clean refreshing bath scrub is epic. Relax while your arms, legs, scalp, and neck are massaged to loosen your muscles and release the tension out of your body.

Founded by Doctor Lisa Benya, a Board Certified Physician, in 2007, CURE has continued to deliver unparalleled treatments for exceptional health, and has experienced tremendous growth as a result.

Each CURE boutique facility offers a unique and sophisticated combination of services that integrate both classic medical and new world holistic expertise for a pioneering approach to absolute health.

Unwind in one of the baths located inside the treatment room afterward to maximize your service, browse and shop in the beautiful retail boutique, and sip on spa water or tea with refreshments before or after your appointment. The highly trained and knowledge staff will make you feel at ease and encourage not just well-being of the body but of the mind and attitude.

## Aquaterra Spa LAGUNA BEACH

Situated inside the Surf & Sand Resort in Laguna Beach, Aquaterra Spa ushers guests into an environment of ultimate tranquility. Customized spa treatments await amidst the backdrop of the breathtaking ocean waves and the salt-scented air. We recommend relaxing and recharging with a 90-minute Lavender & Rosemary Massage, offering a mix of blended oils, hot stone massage and

additional therapies that aid in relaxing your senses.

With eight treatment rooms, an ocean view couples room you can enjoy a romantic escape or a spa day with friends. Slip into one of the spas plush robes and relax in the quiet area before your treatment. Enjoy the warmth of the fireplace and grab some reading material while you prepare to embark on a day of relaxation.

Beyond massages and facials, Aquaterra also offers an intimate Nail Nook where guests can enjoy manicures and pedicures. Relieve your weary feet and immerse them in a soak bath with mineral salts to exfoliate rough skin. At Aquaterra, you can experience not just the ambiance of a day spa but a revitalizing day at the spa. Book an appointment at the spa and you can also enjoy the pool area and some amenities at the hotel.

After your treatment retreat to the locker room and complete the day with a trip to their eucalyptus steam room or outdoor Jacuzzi. There is no rush here, take your time and soak up every minute of this oceanfront oasis.
